Autostratus Motorhome Collection...

AUTOSTRATUS

As you will discover with the new Autostratus range, every aspect of the development has been inspired by an uncompromising approach to exceeding those expectations.

As you step inside, you'll notice how warm, spacious and welcoming the new Autostratus really is, and how it's been paid attention to every detail.

Upholstered in luxurious Ross Caramel designer fabrics for the 'Burberry' look, with co-ordinating cushions and pelmets and rich burgundy Caprio curtains. Stylish chrome furniture handles on Montreal Maple finished cabinets complete the beautiful interior looks of the Autostratus.

You will find brand new, easy to use control panels, an extending electric powered step and stunning new chrome directional spotlights to provide you with soft ambient lighting.

The kitchen is fully equipped with an Explorer 550W microwave in its own specially designed tambour unit. Below this you'll find a stylish yet practical scratch resistant linen finished stainless steel sink and hob. All covered over by 'Chinchilla' glass worktops -the patterned surface

AUTOSTRATUS RB

The RB is the rear bathroom model. The bathroom is very large and well equipped with a curvaceous shower cubicle with its own duckboard and separate Thetford rotatable toilet with electric flash.

Storage is provided by a large illuminated wardrobe with integral shelving and handy drawers beneath and a well designed sink and vanity unit with lots of useful space spread throughout.

Even with all this there is still plenty of room to dress and pamper yourself in complete privacy and comfort.

The layout gives generous seating and dining areas. An L shaped kitchen comes complete with Domestic's tall Rm6505 Fridge/ Freezer unit and lots of work surface space.

H 2850mm
W 2400mm
HR 1975mm
1x Double bed

AUTOSTRATUS RG

You'll find a large seating area and a generously sized central kitchen, fully equipped for the most avid with high specification Spinflo gas oven and 550W microwave.

The rear garage is large enough to take a scooter or the families bicycles, and is situated beneath the fixed double bed at the rear of the vehicle.

The remote controlled electric rise and fall of the rear bed by 4 quiet 12V electric motors allows you to have variable heights or storage space or maximum sleeping space.

Anchor points and a bike ramp are provided and add to the superb flexibility of this unique and innovative award winning feature.

No of Berths/Seats	4/1
Overall Length	7,35m

MTPLM	3 850kgs
MRO	3 300kgs

AUTOSTRATUS FB

The brand new FB is the first Eddis with fixed bed designed and engineered by highly experienced development team.

The sleeping area can be completely screened from the rest of the living space, using a clever sliding door and blind system.

Ample seating and dining space is combined with a convenient central kitchen, which is fully equipped to cope with the preparation of light snacks or a full Sunday lunch using the illuminated double shelf oven.

Add an en-suite vanity sink and mirror, lots of useful shelves and storage space, a toilet and shower room that tuck neatly in to the corner and this is truly a home from home.
